

CONCEPT C - WSF

- Holding is in the expanded form as in Scheme A.
- There is a minimal amount of additional land needed for this scheme.
- Transit enters and exits the site from Cave Ave. The Transit deck is located at level +50. All routes are held on one level.
- Auto and Bike traffic enter at 305 and Winslow Way. They both exit the vessels on the North side of Holding.
- Pedestrians to the North enter the site at 305/Winslow Way and walk on a trestle direct to the overhead loading of the vessels. The elevated path passes by the Terminal at level +50.
- Kiss and ride and Para transit enter the site at Ferncliff and there is a drop off area at level +70.
- The Terminal is 2 stories high. It connects levels, +70 and + 50 with escalators, elevators and stairs.
- It is anticipated that a covered walk would begin at the Terminal and lead to the vessels.
- The land now owned by WSF to the East is not used and is available for development.
